Reflections:	I feel that I was able to take responsibility for the students learning through a variety of assessment tools. I tried to mix things up each lesson I did and I worked with my classroom teacher to use technology in her classroom that was new to me to assess the students. I worked to improve in every lesson I did.
Overall Rating:	Proficient
Reflections:	I worked very hard to use a variety of tools in my lessons to keep the students involved. As I went along I found that there were some things that didn't work within my instruction, but I tried to change things as I went to make the lesson better. This included adapting to students individual needs.
Overall Rating:	Proficient
Reflections:	I felt very comfortable at the school I was in. I felt I made a strong connection with my classroom teacher and I was able to also create relationships with others within the school. I think I did well in my ability to create lesson plans and plan for those lessons.
